Experience

Jesús Ángel Sánchez Veiga is the partner in charge of the Litigation and Arbitration department of the La Coruña office, and of the Restructuring & Insolvency practice in Galicia.

He has pursued his professional career at Garrigues since September 2001, having previously been linked to other joint projects in Galicia in the area of business law.

He specializes in litigation and insolvency in general, with multidisciplinary expertise and in-depth knowledge of the world of business law, having performed numerous engagements dealing with tax, corporate and labor law matters in the course of his career.

He also has experience in specific sectors of the legal industry, such as banks and savings banks, as well as of the core business community in Galicia, family businesses, which have their own particular problems and structures.

He has also participated in several M&A transactions, as well as in the implementation of business ventures, start-ups and processes for expanding businesses and activities, among others.

Jesús is also a regular speaker at seminars and conferences organized by the firm and by various specialist centers.

In recent years he has carried out extensive professional work and training in restructuring and insolvency proceedings, having led several major insolvency proceedings and corporate refinancing projects in Galicia. He is a noted lawyer in the field, with a leading reputation in court and with financial institutions, in light of his deep theoretical knowledge and clear practical approach to problem-solving in his professional practice.

He maintains a very active presence on the Governing Board of the Bar Association and of the School of Legal Practice, having promoted several successful collective training projects, both in terms of attendance and quality. He also has close ties with the Galicia Economists Association, being recognized as a permanent contributor, resolving professional problems and concerns of both groups, strengthening these ties and joint professional collaboration spaces.
