### Restructuring and Insolvency

#### Dispute Resolution: Litigation and Arbitration

Banking and Finance

---

Juan Verdugo is partner of Garrigues' Restructuring and Insolvency practice since 2011. His multidisciplinary profile enables him to offer top-level advice in special situations or "special sits" (insolvencies, restructuring plans, debt restructuring, operational restructuring, downsizing & relocations, debt-to-equity and loan-to-own deals, acquisition of distressed businesses and business units within insolvency proceedings).

He has more than 15 years of experience in debt market transactions, advising funds and financial institutions on sell-side and buy-side of non-performing loans portfolios ("NPLs"), single names and the entire on boarding process for loan recovery, in particular the more complex and special workouts that require a more innovative approach.

With an in-depth knowledge of the secondary debt market, he is a regular advisor to the main credit servicers and funds on regulatory aspects such as registration, supervision and sanctions.

Juan has a superb track record with the enforcement of securities packages, claw-back actions and avoidance claims, and he has collected major successes defending big court cases where liability of directors were on the spotlight.

### Experience

Juan manages some of the most high-profile insolvency proceedings in Spain, defending the interests of industrial companies, financial institutions, investment banks, insurers, property developers, construction companies, private equity firms and hedge funds.

He has amassed a wealth of experience in refinancing distressed businesses, the purchase and valuation of unsecured and secured NPLs portfolios, the acquisition of debt from banking syndicates ('distressed debt trading') and the purchase of companies or assets subject to insolvency proceedings. Also worthy of note is his experience in the area of cross-border insolvencies and in advising foreign investors on bids to acquire a controlling stake in distressed companies ('loan-to-own').

With a brilliant past and present as a litigator, he specialises in the enforcement of security packages, the defence of clawback actions and, most recently, has successfully defended major court cases involving the liability of directors and partners for decisions taken in the 'twilight zone' (scenarios of financial and operational difficulties).

- In 2014 he acted as lead advisor to the buyer of the **first large portfolio of NPLs sold in Spain (c. €1 billion)** which included failed positions in prime hotel assets and operating businesses ("Proyecto Amazona").
- In 2016, according to the Financial Times, a team led by Juan Verdugo closed the **most innovative restructuring deal in Spain** ("Financial Times Innovative Lawyers Awards 2016"), bringing a Spanish industrial champion to viability through a partial spin-off of its business.
- In 2018, he achieved a **major media success for the NPL market**, unifying the criteria of the General Directorate of Registries and Notaries to accelerate the return on investment of funds buying NPLs.
- In 2019, the impact of Juan's legal innovation, which **created a new standard and improved the competitiveness and attractiveness of the Spanish NPL market**, was recognised by the Financial Times (Financial Times Innovative Lawyers Awards 2019), which awarded the project led by Juan Verdugo the first prize in the Legal Expertise category ("Creating a New Standard").
- During 2019 to 2021, he advised on the orderly closure, relocation and sale of the **Spanish business of tour operator Thomas Cook**, leading the restructuring and insolvency proceedings of the group's Spanish companies.
- In 2020 advised on the **financial restructuring of the leading Spanish aviation, rescue and firefighting services operator**, which included a €100 million bond issue.
- In 2022 advised the **main Spanish credit servicers** on their pioneering consultation with the Bank of Spain on European credit servicing regulations, which was resolved favourably leaving servicers temporarily out of the registration obligation.
- In 2023 he was the leading counsel for negotiating, approving and **sanctioning Spain's first restructuring plan**, which included **class composition, cross-class cramdown** and **DIP financing**.
- In 2024, Juan completed the **first ever pre-pack sale** through the pioneering e-procedure for micro-enterprises, thus paving the way for the rescue and save of the leading publication on international politics in Spain.

He regularly contributes articles to Spanish financial newspapers (Expansión, El Economista) and international publications (Financier Worldwide, The European Lawyer, Legal Week, Legal Business and Euromoney).

**Global Restructuring Review 100 2022:** Restructuring & Insolvency, Global leader.

- *"Coming in for particular praise, Verdugo is 'undoubtedly a market leader': He works his legal magic to make clients' dreams come true. He makes the grey areas of restructuring black and white in a way that significantly eases the decision-making process."*

**Lexology "Client Choice" 2022, Restructuring & Insolvency:**

- Client Choice recognizes those law firms partners around the world that stand apart for the excellent client care they provide and the quality of their service. The criteria for this recognition focus on an ability to add real value to clients' business above and beyond the other players in the market. Uniquely, law firms and partners can only be nominated by corporate counsel.

**Financial Times European Innovative Lawyers Awards 2019:** Legal Expertise, Standout, "Creating a New Standard".

- *"Juan proposed a new reading of Spanish law and led interested parties in lobbying for new interpretation of the need for original documentation when acquiring non-performing loans. Previously debt funds acquiring NPLs could not legally enforce the related mortgages without the first certified copy of the loan deed signed by the borrower. The new interpretation allows funds to use a second copy, enabling them to foreclose assets approximately 18 months sooner than before. Huge impact of his legal innovation, which creates a new standard and improves competition and the appeal of the Spanish NPL market, one of the most active in Europe".*
